Start with 1 1/2 inch square stock, 18 inches long for the handle.
Rip the ends (at right angles to each other) down to 5/8" thick.
Turn the shaft in the lathe down to the pattern shown.
Saw the tenons on each end down to 1/4"

Make the heads from 5/8" thick stock.
(One of the ends needs to have a straighter end to let yarn slip off).
Mortise the centers of the heads to fit on the tenons.
